

Outline

Outline the dialog that you are creating.

- 1 **Title**
Define a title for your prototype

- 2 **Topic**
What topic do you want to talk about

- 3 **Objective**
Do you want to ask questions to the user / does the agent answer questions?
There is two main approaches:
 - The agent response is passive and answering questions
 - The agent is active and asking questions

- 4 **Identity of Agent**
In what name does your agent act? Think about the identity and personality. Also think about the language your agent is utilizing.

- 5 **Location**
Where is the agent positioned?
How does that the identity / behavior of the user and the agent?
